

Global Political Economy O'Brien

Mark Steyvers

Global Political Economy Robert O'Brien, Marc Williams, 2020-04-07 Offering an accessible introduction to both the historical roots and the contemporary dynamics of today's world economy, the extensively revised sixth edition of this bestselling textbook continues to lead the way in equipping students with the knowledge required to make sense of the fast-paced discipline of Global Political Economy. Illustrating the breadth of the subject, the book's authors – both highly regarded experts in the field – show how the national and international interact, while also placing an emphasis on the historical evolution of the world economy in order to appreciate the nuances of today's economic structures. The global economy is traced from the Industrial Revolution through each phase of a shifting world order to the modern day. Then follows an engaging exploration of the dynamics of today's economy, including: trade, production, finance, labour, gender, development, the environment, security and governance. This takes into account the latest developments in the global economy, from automation and the challenges posed to the labour force, to artificial intelligence and the increasing complex, global supply chains of modern transnational firms. This is the most authoritative and accessible textbook on global political economy, making it the ideal companion for students at undergraduate and postgraduate levels, on politics, international relations and related degrees. New to this Edition: - Extensively updated to feature the latest empirical developments, including rising economic nationalism, US trade wars with China, and populism. - Brand new boxed features illustrate the latest dynamics, including the impact of digital technologies, artificial intelligence and automation, and the growth and consequences of increasing inequality. - Greater coverage of the sustained threats to the liberal international order and likely future scenarios. Accompanying online resources for this title can be found at [bloomsburyonlineresources.com/global-political-economy-6e](https://www.bloomsburyonlineresources.com/global-political-economy-6e). These resources are designed to support teaching and learning when using this textbook and are available at no extra cost.

Global Political Economy, 3rd Edition Robert O'Brien, Marc Williams, 2010-05-15 This is the new third edition of this popular and successful text on the contemporary global political economy and its historical evolution has been systematically revised and updated throughout. The impact of the banking and broader crisis is fully covered and new chapters have been added on security and on theories and methods.

Global Political Economy Robert O'Brien, Marc Williams, 2022

Global Political Economy, Second Edition Robert O'Brien, Marc Williams, 2007-05-15 This popular and successful text provides a comprehensive introduction to the global political economy of today, set in a broad historical context. It introduces an unusually wide range of theoretical approaches and highlights how useful they are in tackling key issues--from trade, production and finance to social divisions, development and the environment. The second edition has been revised and updated throughout with the addition of additional chapters on gender, on ideas and information, and on key issues and debates for 21st century IPE.

Global Political Economy Robert O'Brien, 2024-11

GLOBAL POLITICAL ECONOMY. ,2021

Global Unions? Jeffrey Harrod, Robert O'Brien, 2012-10-02 This edited collection examines the interaction between industrial relations and international relations in the global economy. The role of trade unions has changed significantly in the era of economic globalization and this book analyzes the key developments in union strategy on a local, national, regional and global level.

Identitäten. Die Fiktionen der Zugehörigkeit Kwame Anthony Appiah, 2019-09-23 Appiah zerlegt die Dogmen und die Propaganda, die harnäckig bestimmen, wie wir über Identität sprechen. Zadie Smith In den politischen Auseinandersetzungen der Gegenwart wird immer wieder eine Kategorie aufgerufen: Identität. Wer sind wir? Oder besser: Was sind wir? Diese Fragen beantworten wir gewohnheitsmäßig mit kollektiven Kategorien wie Religion, Nationalität, Hautfarbe, Klasse oder Kultur. Kwame Anthony Appiah zeigt, dass hinter den politischen Kategorien von Zugehörigkeit und Abgrenzung häufig paradoxe Zuschreibungen stehen, und schöpft dabei aus einem schier unendlichen Reservoir historischen Wissens sowie persönlicher Erfahrungen - und schafft mit dem Handwerkszeug des Philosophen Ordnung und Orientierung in einer häufig unübersichtlichen und politisch brisanten Diskussion. Sein Buch ist grundlegende Lektüre für eine komplexe Welt.

Global Political Economy Robert Gilpin, Jean M. Gilpin, 2001-03-12 The end of the Cold War has unleashed unique economic and political forces. Computers are an increasing impetus to the world economy, along with technological developments. This work studies these developments, and others, to survey the approaches to understanding international economic relations.

Globalisation contested Louise Amoore, 2013-07-19 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This exciting book provides an illuminating account of contemporary globalisation that is grounded in actual transformations in the areas of production and the workplace. It reveals the social and political contests that give 'global' its meaning, by examining the contested nature of globalisation as it is expressed in the restructuring of work. Rejecting conventional explanations of globalisation as a process that automatically leads to

transformations in working lives, or as a project that is strategically designed to bring about lean and flexible forms of production, this book advances an understanding of the social practices that constitute global change. Through case studies that span from the labour flexibility debates in Britain and Germany, to the strategies and tactics of corporations and workers, the author examines how globalisation is interpreted and experienced in everyday life. Contestation, she argues, is about more than just direct protests and resistances. It has become a central feature of the practices that enable or confound global restructuring. This book offers students and scholars of international political economy, sociology and industrial relations an innovative framework for the analysis of globalisation and the restructuring of work.

Global Political Economy Ronen Palan, 2013-05-07 Global Political Economy (GPE) is a broad and varied field of study and draws insight from a great number of fields and approaches. One of the serious problems confronting academics and students is the sheer mass of theories and debates in the field. This textbook provides up-to-date summaries of the debates and approaches that are currently at the forefront of both European and American GPE. This new revised and expanded second edition contains updated versions of most of the original chapters. In addition, there is a new section entitled 'Emerging issues in contemporary Global Political Economy (GPE)' and six new chapters. The second edition is structured around three themes: Part I focuses on the six central concepts of GPE: state, firm, power, labour, finance and globalization. Each one of them has been increasingly subjected to a rigorous and critical evaluation in recent scholarship. Part II covers a select number of theories and debates currently at the forefront of GPE: game theory; behavioural economics; neo-, sociological and evolutionary institutionalism; neo-Marxism; development and post-development; libidinal economies; and economic constructivism. Part III, which is new to this edition, is entitled 'Emerging issues in contemporary Global Political Economy (GPE)' and focuses on war, state and International Political Economy (IPE); race, gender and culture; environmental politics; and the rise of China. This is essential reading for all serious scholars and advanced students of IPE.

Growth and Development in the Global Political Economy Phillip O'Hara, 2004-03-01 Recent institutional changes have seen the increasing dominance of globalization and neoliberalism in the world economy. As markets have been deregulated, privatization and unproductive government spending have been promoted. Yet the greater volatility of capitals, the emergence of many financial crises, a decline in trust, and environmental problems have cast doubt on the effectiveness of neoliberal globalization. This book studies the impact of neoliberal globalization on growth and development in the world economy. It scrutinizes whether new social structures of accumulation or modes of regulation have emerged to promote long-term socioeconomic performance in the global economy during the early years of the twenty-first century. Special reference is given to the specific performance of neoliberal governance; transnational corporations; global institutions of money, trade and production; international relations of war and terrorism; financial institutions; and the family-community environment. It is a comprehensive analysis of the degree to which institutional development has managed to promote socioeconomic

performance in the global economy. It also presents a thorough policy program of action for long wave upswing in the world economy. It will be especially useful for those scholars and students concerned with issues of governance, global political economy, institutions and macroeconomics

Global Political Economy David Reisman, Economics is business and politics is power. In this insightful book, David Reisman explores the interaction between authority and exchange in a global village where individual nation states - once the pinnacle of political organization - increasingly depend on each other for their material well-being.

The Emergence of the Global Political Economy William Thompson, 2002-11 A survey on a global scale of how politics and economics have interacted to shape international relations and the world in which we live.

Global Political Economy and the Wealth of Nations Phillip O'Hara, 2004-03-25 This comprehensive collection documents the major processes, performance, institutions, problems and policies associated with global political economy. For the first time in a single volume, the authors present a detailed analysis of the changing distribution and production of wealth throughout the world, different measures of performance, the global technological revolution, long waves in the world economy and a special study of Asia and Eastern Europe in the world system.

Global Political Economy and the Modern State System Tobias Ten Brink, 2014-04-03 In *Global Political Economy and the Modern State System* Tobias ten Brink contributes to an understanding of the modern state system, its conflicts, and its transformation. In contrast to the political attractiveness of optimistic theoretical approaches to globalisation, this book demonstrates how an analytical approach rooted in Global Political Economy (GPE) helps to explain both the tendencies towards integration and towards rivalry in international relations. By way of a historical reconstruction of different 'world order' phases in the twentieth century, ten Brink analyses multiple, phase-specific variations of socioeconomic and geopolitical conflicts that are significant for the modern capitalist world system. Revised edition of *Geopolitik. Geschichte und Gegenwart kapitalistischer Staatenkonkurrenz*, Verlag Westfälisches Dampfboot, Münster, 2008.

Global Political Economy Theodore H. Cohn, 2016-05-05 Praised for its authoritative coverage, *Global Political Economy* places the study of international political economy (IPE) in its broadest theoretical context now updated to cover the continuing global economic crisis and regional relationships and impacts. This text not only helps students understand the fundamentals of how the global economy works but also encourages them to use theory to more fully grasp the connections between key issue areas like trade and development. Written by a leading IPE scholar, this text equally emphasizes theory and practice to provide a framework for analyzing current events and long-term developments in the global economy. New to the Seventh Edition Focuses on the ongoing global economic crisis and the continuing European sovereign debt crisis, along with other regional economic issues, including their implications for relationships in the global economy. Offers fuller and updated discussions of critical perspectives like feminism and environmentalism, and includes new material differentiating

among the terms neomercantilism, realism, mercantilism, and economic nationalism. Updated, author-written Test Bank is provided to professors as an e-Resource on the book's Webpage.

Global Unions? Jeffrey Harrod, 2003

Rethinking Global Political Economy Kurt Burch, Robert A. Denemark, Kenneth P. Thomas, Mary Ann Tétreault, 2004-02-24 This new volume presents innovative approaches to the fundamental issues of the global political economy, in particular post Cold War development, analyses of capital and negative aspects of globalization.

Reconstructing the Global Political Economy Andersson, Erik, 2020-05-20 In an era of post-globalisation, the global political economy needs restructuring. This future-orientated textbook examines the challenges facing the world economy as a result of climate change, social and economic inequality and provides future-oriented solutions. Andersson clearly presents and explains key concepts from Global Political Economy (GPE) to show how these can be used to design and analyse potential reconstructions of the global political economy, offering the analytical tools and inroads to this reconstruction. With a comprehensive exploration of the different ideological pathways that change might take, through intersecting dimensions of gender, race and class, the author expertly guides the reader through thematic chapters such as: • The political economy of everyday life • Regulation of global trade • Post-development • Global value chain production • Financial markets This textbook will help students and non-specialist readers to see that global economic change is possible and show how core concepts from GPE can enable clear thinking about a global future that is environmentally, socially and economically sustainable.

This is likewise one of the factors by obtaining the soft documents of this **Global Political Economy O Brien** by online. You might not require more period to spend to go to the book commencement as without difficulty as search for them. In some cases, you likewise do not discover the declaration Global Political Economy O Brien that you are looking for. It will unconditionally squander the time.

However below, bearing in mind you visit this web page, it will be suitably very simple to get as without difficulty as download lead Global Political Economy O Brien

It will not take on many become old as we notify before. You can get it even if acquit yourself something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we offer below as capably as evaluation **Global Political Economy O Brien** what you afterward to read!
